Chapter 1: The History of the Easter Bunny

The Easter Bunny is a relatively new tradition, dating back to the 16th century. However, the origins of the Easter Bunny can be traced back to ancient pagan traditions. In many cultures, rabbits were seen as symbols of fertility and new life. This is why rabbits are often associated with Easter, which is a time of rebirth and renewal.

The first Easter Bunny was said to have been a white rabbit that laid colored eggs. This rabbit was said to have been brought to Germany by Martin Luther in the 16th century. The tradition of the Easter Bunny quickly spread throughout Europe and eventually made its way to the United States.

Chapter 2: The Habits of the Easter Bunny

The Easter Bunny is a very busy bunny! He has to deliver eggs to all the children in the world in one night. So how does he do it? Well, he has a few tricks up his sleeve.

First of all, the Easter Bunny is very fast. He can run up to 50 miles per hour! This helps him to cover a lot of ground in a short amount of time.

Second, the Easter Bunny has a very good sense of smell. He can smell the cookies and milk that children leave out for him. This helps him to find

his way to their houses.

Finally, the Easter Bunny has a lot of help from his friends. He has a team of rabbits that help him to deliver eggs. He also has a few other animals that help him out, such as squirrels, birds, and even reindeer.

Chapter 3: The Favorite Hiding Spots of the Easter Bunny

The Easter Bunny loves to hide eggs in all sorts of places. Some of his favorite hiding spots include:

- In the grass
- Under trees
- In bushes
- In flowers
- In baskets
- In shoes
