The book is divided into three parts. The first part tells the story of the early Chinese immigrants who came to Montana in the mid-19th century. These immigrants were mostly young men who came to work in the gold mines. They faced many challenges, including racism, discrimination, and violence. But they also persevered, and they made significant contributions to the development of Montana.

The second part of the book tells the story of the Chinese immigrants who came to Montana in the early 20th century. These immigrants were mostly families who came to work in the farms and businesses of Montana. They faced many of the same challenges as the earlier immigrants, but they also found more opportunities for success. They established businesses, raised families, and became active members of their communities.

The third part of the book tells the story of the Chinese immigrants who came to Montana in the late 20th century. These immigrants were mostly professionals and students who came to Montana to work and study. They faced fewer challenges than the earlier immigrants, but they also brought new perspectives and experiences to Montana.

Long Way Home is a valuable addition to the literature on Chinese American history. It is a well-written and researched book that tells a compelling story of hardship, resilience, and hope. It is a must-read for anyone interested in the history of Montana or the Chinese American experience.
